

New Source Review newspaper advertisements for construction permit applications, April 7, 2005. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: April 5, April 6, or April 7, 2005. Public notices are generally published every two weeks. The previous publication of public notices was March 22 – 24, 2005.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is H&H Oil Recovery with a mailing address of 3580 Hwy 641 South, Camden, TN 38320. They seek to obtain an air contaminant permit (Division identification number: 03-0051-01/58050) for an Oil/Water Separation Process and Associated Storage Tanks located at the same address. This existing operation consists of a natural gas fired and/or #2 oil fired heater used to heat oil to facilitate the separation of water from used motor oils. Also this operation consists of numerous storage vessels and associated equipment used to store the separated wastewaters and used oil. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Fuss is the assigned Division person.

For the Benton County "Camden Chronicle"--published once on or before Thursday, April 7, 2005.

---

The applicant is MECO Corporation with a mailing address of 1500 Industrial Road, Greeneville, TN 37745. They seek to obtain an air contaminant permit (Division identification number: 30-0139-14/58068) for modification of a Paint Cleaning System located at the same address. This existing operation consists of a fluidized bed with natural gas-fired burners. A cyclone is used for emission control. The requested modification is to allow the use of propane as a backup fuel. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. T. Blake is the assigned Division person.

For the Greene County "Greeneville Sun"--published once on or before Thursday, April 7, 2005.

---

The applicant is Wayne Vandiver Sawmill, LLC with a mailing address of 705 Walnut Grove Road, Bolivar, TN 38008. They seek to obtain an air contaminant permit (Division identification number: 35-0075-01/58036) for a

Woodworking Operation located at the same address. This existing operation consists of three (3) chain-driven sawmills operated by diesel motors. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. G. Latif is the assigned Division person.

For the Hardeman County "Bolivar Bulletin-Times"--published once on or before Thursday, April 7, 2005.

---

The applicant is H.C. Spinks Clay Company with a mailing address of 612 Tenth Avenue North, Nashville, TN 37203. They seek to obtain an air contaminant permit (Division identification number: 40-0010-01/58054) for modification of a Clay Processing Operation located at 275 Carothers Loop, Paris, TN 38242. The requested modifications are to replace the shaker baghouse controlling the mill, to replace the baghouse controlling the rail load out operation, and to increase the allowable operating hours with natural gas usage. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. J. Swinea is the assigned Division person.

For the Henry County "Paris Post-Intelligencer"--published once on or before Thursday, April 7, 2005.

---

**This is the second notice for this application.** The applicant is IMCO Recycling, Inc. with a mailing address of P.O. Box 187, Loudon, TN 37774. They seek to obtain an air contaminant permit (Division identification number: 53-0079-05/57464) for construction of a Rotary Furnace for Secondary Aluminum Processing at 388 Williamson Road, Loudon, TN 37774. This proposed operation would consist of aluminum scrap and dross handling with flux addition to a natural gas-fired rotary furnace to produce molten aluminum. A lime-injected baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Steven R. Simpson is the assigned Division person.

For the Loudon County "News-Herald"--published once on or before Thursday, April 7, 2005.

---

The applicant is IMI Tennessee, Inc. with a mailing address of 2531 Park Drive, Suite D, Nashville, TN 37214. They seek to obtain an air contaminant permit (Division identification number: 60-0196-01/58037) for construction of a Concrete Batch Plant at the intersection of Hardison Mill Road and Cole Bend Road, approx. 10 miles east of Columbia, TN 38401. This proposed operation would consist of cement storage silos, sand and gravel stockpiles, and associated equipment used to produce concrete which is discharged by weigh-batcher into trucks for transit mixing. Wet suppression and baghouses would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Smith is the assigned Division person.

For the Maury County "Daily Herald"--published once on or before Thursday, April 7, 2005.

---

The applicant is Charles Blalock and Sons, Inc. with a mailing address of P.O. Box 4750, Sevierville, TN 37864. They seek to obtain air contaminant permits for modification of a Portable Rock Crushing Operation used at the following locations:

- (1) 4265 Boyd's Creek Road, Sevierville, TN 37876 (78-0110-02/58067)
- (2) Intersection of former Walker Street and Sunnyside Ave., Sevierville, TN 37862 (78-0117-02/58066)

These existing operations consist of crushing, screening, and conveying equipment used to produce crushed stone from recycled concrete. The crushers are powered by internal combustion engines, which are fueled by number 2 fuel oil. Wet suppression is used for control of particulate emissions, and the source is required to use Best Available Control Technology (BACT) to reduce emissions of nitrogen oxides and volatile organic compounds. The requested modification is to increase the allowable operating hours at each site. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. T. Blake is the assigned Division person.

For the Sevier County "Mountain Press"-- published once on or before Thursday, April 7, 2005.

---

The applicant is The Robinette Company with a mailing address of P.O. Box 3567, Bristol, TN 37620. They seek to obtain air contaminant permits for air contaminant sources located at 621 Mountain View Road, Piney Flats, TN 37686, as follows:

(1) Printing Operation (Division identification number: 82-0314-01/57992). This existing operation consists of a flexographic printing press. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. V. Murrell is the assigned Division person.

(2) Surface Coating Operation (Division identification number: 82-0314-02/57993). This existing operation consists of a spray booth. Exhaust filters are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. V. Murrell is the assigned Division person.

For the Sullivan County "Bristol Herald Courier"--published once on or before Thursday, April 7, 2005.
